

# MERCOBRIDGE EU: OPERATIONAL CAPABILITY 2026

CLASSIFICATION: COMMERCIALY CONFIDENTIAL | MANDATE ACCESS ONLY

**I. EXECUTIVE SUMMARY** MercoBridge EU provides the institutional bridge between Mercosur-origin production and European refinery desks. We operate as a private, mandate-only consultancy focused on physical supply chain integrity and regulatory clearance.

**II. THE EUDR PROTOCOL (REGULATORY LEVERAGE)** In 2026, compliance is the primary barrier to market entry. MercoBridge provides the "Zero-Deficit" framework required to bypass the 14-21 day quarantine lag currently affecting non-vetted imports at Italian ports.

### III. CORE CAPABILITIES

- **Geolocational Traceability:** 1:1 polygon mapping for every metric ton of cargo.
- **Satellite Verification:** Real-time deforestation monitoring via Sentinel-2 data integration.
- **Customs Integration:** Direct protocol alignment with Italian port authorities (Trieste/Genoa) for immediate discharge.

## SGS COMPLIANCE SUMMARY: BATCH MB-2026-IT

DATA FIELD	SPECIFICATION / VERIFICATION
Batch ID	<b>MB-2026-IT-TR8</b>
Vessel / IMO	<b>SKS SEGURA / 9340623</b>
Origin Polygon	<b>[GPS: -12.548, -55.722] - Mato Grosso</b>
Deforestation Status	<b>NULL (Verified via Sentinel-2 Imagery)</b>
SGS Inspection	<b>Certified Quality/Quantity at Loading Port (Santos)</b>
<b>EUDR Status</b>	<b>ACTIVE / CLEARED FOR DISCHARGE</b>
